

POLICY: APPLICATION FOR RIDER SUBSIDY

DATE ESTABLISHED: JUNE 5, 2013

**DATE REVIEWED/
REVISED:**

APPLICATION: ANYONE IN FINANCIAL NEED WHO IS INTERESTED IN
RIDING AT TEAD

PREAMBLE

It is the policy of TEAD to make its therapeutic riding program affordable for everyone. For this reason, TEAD keeps rider fees as low as possible. Our fees represent about 1/3 of the actual costs of providing the service. TEAD applies for grants, and solicits donations in order to cover the other 2/3 cost of making it possible for everyone to experience the joy of riding a horse.

POLICY

TEAD recognizes that, even the affordable fee TEAD charges, may put the service beyond reach of the means of some individuals and families. In these cases, TEAD offers a limited subsidy program, to which individuals and families in need may apply.

The size of the subsidy fund varies from year to year and TEAD cannot guarantee that everyone who applies will receive a subsidy.

Subsidies will be granted on a first-come, first-served basis. Families with two or more children attending will be considered as one application.

An individual or family that would like to apply for subsidy, should submit a Request for Subsidy Form indicating the amount being requested and return it to the Program Director by the posted due date. You will be advised within one week of the deadline if you have been approved for the requested subsidy.

Families and individuals may apply for subsidy more than once; but a separate application must be made each time.

Please note: all riders must pay part of the fee. The minimum contribution from any rider is currently set at 20% of the set fee. Cost of required membership fees are the responsibility of the participant.

Approved by the Board of Directors on 24th day of July, 2013.
