WHY HORSES?

Horses are prey animals and naturally mirror the thoughts and behaviour of others. They respond quickly to our body language, giving participants instant feedback on their actions and allowing connections to develop more easily. Horses are large, powerful animals that can challenge participants to overcome fear and expand their comfort zones. As a result, they gain confidence, empowerment, and self-esteem.

*All TEAD programs are subject to a \$15 Annual Rider Registration Fee in addition to program costs

TEAD is an accredited Canadian therapeutic equestrian facility, insured and certified through CanTRA and is a registered charitable organization #889874970RR0001.

Any of our programs can be customizable to the interests and needs of its participants, regardless of age or ability.
