WHY HORSES?

Horses are prey animals that naturally mirror the thoughts & behaviour of others. They respond quickly to our body language, giving participants instant feedback on their actions & allowing connections to develop. Horses are powerful animals that can challenge participants to overcome fear & expand their comfort zones, thereby gaining confidence, empowerment, & self-esteem.

*All TEAD programs are subject to a $15 Annual Rider Registration Fee in addition to program costs. A $45 assessment may also be required.

TEAD is an accredited Canadian therapeutic equestrian facility, insured and certified through CanTRA and is a registered charitable organization #889874970RR0001.

Any of our programs can be customizable to the interests and needs of its participants, regardless of age or ability.
